

## Vital Statistics 2014

### Large regional fertility differences

For the third consecutive year, the fertility rate is below reproduction level. Large regional differences is hidden behind this national average.

Particularly Nuuk stand out with even lower fertility than the country's other municipalities. The fertility level has approximately been 83 per cent of the national average over the past 10 years. In contrast, the level is considerably higher in Tasiilaq. See figures for all municipalities and districts in our Statbank.

### Fertilitetsindex in municipalities and selected localities 2005-2014

## Figures in our Statbank

On population we can present detailed, coherent and consistent statistical information for:

Population estimates: 1977-2015

Births: 1973-2014

Deaths: 1973-2014

Cause of Deaths: 1990-2012

Migration: 1993-2014

Internal migration: 1993-2014

In creating these tables the present administrative subdivision has been used and municipalities are as defined on January 1st 2009. At lower levels we use 2 concepts; districts are equivalent with municipalities prior to 2009 and localities. A locality is a place and can be any town, settlement, station, mine and can be inhabited or not. For definition we use the one ASIAQ ([www.asiaq.gl](http://www.asiaq.gl)) has determined. The Asiaq list on localities is as of now not complete with regards to historical localities.

To ensure consistency at detailed levels we have revised our data once again. Some minor inconsistencies have been corrected, and some differences can be found in comparing the revised tables with previously publications.

For fast access to a relevant table in the Statbank, links are found below each table and graph on the following pages.

### Summary table 1. Population January 1st by gender, 2007-2015

	2007	2008	2009	2010	2011	2012	2013	2014	2015
Total	56.648	56.462	56.194	56.452	56.615	56.749	56.370	56.282	55.984
Men	30.005	29.885	29.809	29.936	29.942	30.041	29.838	29.730	29.556
Women	26.643	26.577	26.385	26.516	26.673	26.708	26.532	26.552	26.428

Visit our Statbank: ( <http://bank.stat.gl/beest1> )

During 2014 total population fell by 298 persons. This is due to these changes:

### Summary table 2. Changes to the population in 2014

Population estimate January 1st 2014	56.282
+ births	806
- deaths	-464
+ immigrated	2.148
- emigrated	-2.733
- corrections	-55
Population estimate January 1st 2015	55.984

In the Statbank you can combine information on residence, gender, mother's age and place of birth from 1977 and onward. Geographically you can choose between municipalities, districts and localities. The most detailed table holds half a million table cells.

**Summary table 3. Births in the municipalities 2012-2014**

	2012	2013	2014
	number of live births		
Total	790	821	806
Kujalleq	90	112	94
Sermersooq	309	315	326
Qeqqata	123	139	127
Qaasuitsup	268	255	259

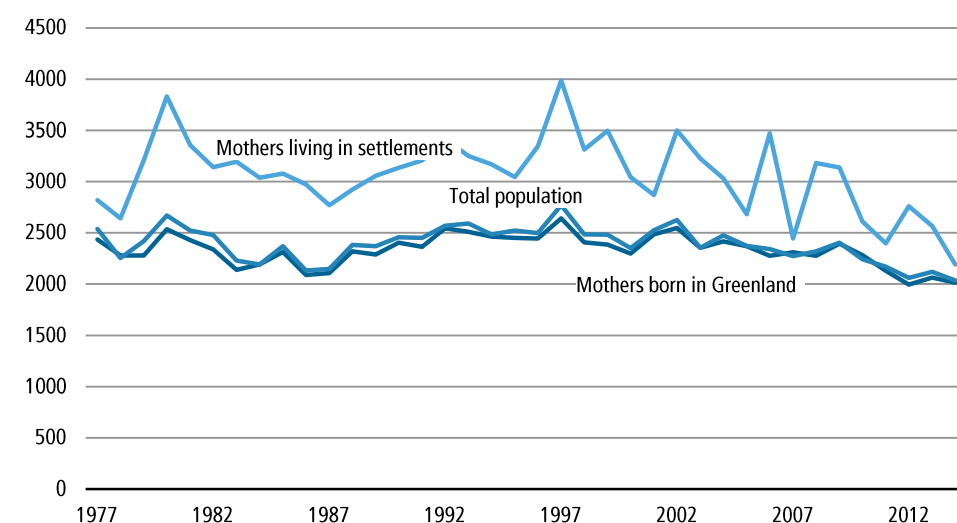

Visit our Statbank: ( <http://bank.stat.gl/BEEBBLM2> )

From summary table 3 we learn that 806 children were born in 2014, which are 15 less compared to 2013. The relatively small birth cohorts from the mid-seventies has for most now completed their fertile period. They will be replaced by relatively larger birth cohorts in the coming years.

The fertility pattern has been unchanged with total fertility at reproduction level. Graph 1 shows the total fertility rates over the past 10 years. There are no major differences at the municipal level. But large differences can be found between towns and settlements. Visit our Statbank:

In the graph 2 below the number of migrations by gender and place of birth 1993-2013 can be seen. Every year more people choose to emigrate than to immigrate. In 2013 2.066 persons immigrated while 2.513 persons emigrated.

**Graph 2. Migrations 1993-2014**

Visit our Statbank: ( <http://bank.stat.gl/beebbiu2> )

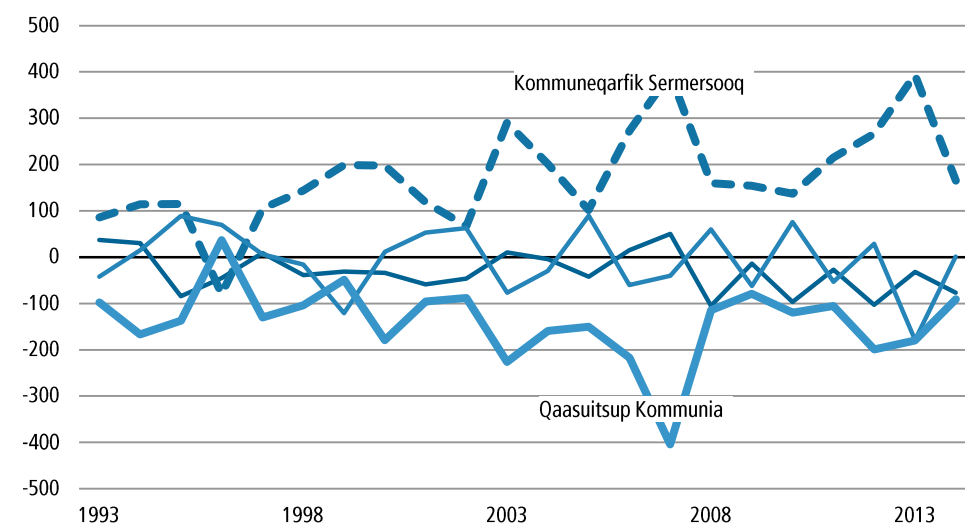

23.110 changes of addresses were recorded in 2014, which is at same level as for the past 5 years. Most moving's takes place within the same locality.

**Summary table 5. Internal migrations 2014**

	Kommune Kujalleq	Kommuneqar- fik Sermersooq	Qeqqata Kommunia	Qaasuitsup Kommunia	Other localities	Municipality of removal Total
Municipality of migration	3.228	8.260	4.351	7.260	11	23.110
Kommune Kujalleq	2.617	291	115	126	2	3.151
