Remarks

The basis of the cruise statistics are the reports from the Tax Office. For 22 calls have not been received passenger lists reports and therefore those were estimated.

On June 2015, there was a reorganization of the taxes for cruises, where the cruises pay taxes based on number of passenger before June 2015, and after that, the taxes were paid base on the gross tonnage of the ship.

Since the reorganization, the Tax Office has experienced problems at receive some of the call reports from the port authorities, and therefore no port fee has been registered for those calls.
